EDUCATION

Bachelor of Science in Computer Science
MacEwan University | Edmonton, AB

April 2026

TECHNICAL SKILLS

Languages: Java, C#, Python, TypeScript, JavaScript, SQL

Frameworks & Technologies: REST APIs, .NET/.NET Core, ASP.NET, React, Next.js, Node.js, Express.js

Databases: SQL Server, PostgreSQL, MongoDB, pgvector

Tools: Git, GitHub, Jira, Postman, Linux, Vercel, Visual Studio, GitHub Copilot

Scripting: Python, PowerShell

Concepts: Object-Oriented Programming, SDLC, Agile Development, RESTful APIs, HTTP, Unit Testing, Data Structures & Algorithms, Cloud Deployment, Cloud Fundamentals, CI/CD Fundamentals, Distributed Systems

PROJECTS

Car Rental Management System | C#, ASP.NET, SQL Server

- Developed a C#/.NET, ASP.NET, and SQL Server application supporting reservation and fleet management operations
- Designed and optimized SQL queries and database operations to improve data retrieval performance
- Tested, debugged, and maintained application functionality to improve reliability and software quality

GRC Compass – AI Compliance Assistant | Next.js, React, PostgreSQL, TypeScript, Supabase, pgvector

- Built and deployed a full-stack AI compliance platform using Next.js, React, TypeScript, PostgreSQL, and Supabase
- Developed REST APIs, authentication workflows, and PostgreSQL database integrations for semantic document retrieval
- Integrated Gemini APIs to enable natural-language querying of compliance documents
- Tested, debugged, and maintained application functionality to improve reliability

Alberta Lakes Monitoring Platform | React, [Node.js](#), MongoDB

- Developed a full-stack environmental monitoring platform using React, Node.js, and MongoDB
- Built APIs and integrated dashboards for data visualization
- Optimized database queries and backend workflows to improve system responsiveness

RELEVANT EXPERIENCE

Technical Assistant | Edmonton Public Schools | Edmonton, AB

Jul 2025 - Aug 2025

- Troubleshoot classroom technology, software, and connectivity issues across multiple learning environments
- Deployed, configured, tested, and troubleshoot classroom technology systems and software
- Collaborated with staff and technicians to resolve technical issues and support daily IT operations

Entrepreneur | Garden Yeg | Edmonton, AB

Feb 2024 - Present

- Built and operated a small business, improving efficiency by 40% through workflow optimization
- Managed customer operations, inventory, and process improvements

Assistant | Sarefa Homes | Edmonton, AB

Jun 2022 - Present

- Maintained documentation and supported operational and technical processes across multiple stakeholders
